www.tecnodomspa.com

Tecnodom's mission is to provide refrigeration equipment and cooking systems characterised by accurate design, advanced technology and the highest quality. We are committed to offering innovative and reliable solutions that meet the needs of our customers in the field of food service.

---

## MISSION

## VISION

---

Our vision is to consolidate Tecnodom's position as the market leader in refrigeration equipment and cooking systems. We aim to be recognised globally for the excellence of our design, the implementation of progressive technology and the production of high-quality products all MADE IN ITALY.

FORNI

# OUR SOUL

There is a soul in every Tecnodom product. The soul of its founders, Domiziano and Patricia, of the Giacon family, of all those who work daily on each project.

"At 18 years and three days I opened my first company. The equipment consisted of a column drill and a compressor, which I had bought by selling my first motorbike: a Laverda 125 whose number plate I still remember by heart. To start producing the first display cases for 3 foreign customers, I made a leasing of 80 million of Italian lire and bought a bending and stamping press that we still have in Tecnodom, still working, which I use when I make my prototypes."

Domiziano Giacon

# RESEARCH AND DEVELOPMENT

## R&D

Heading the R&D area is the company founder, **Domiziano Giacon**.

How the department is composed:

- 2** R&D
- 1** IT manager
- 7** Technical dept
- 2** Technical support
- 8** Production managers
- 2** Laboratories

## MACHINERY

- Miling machining centers **2**
- Laser **6**
- Tube laser **1**
- Bending Robot **1**
- Bending machines **9**
- Punching machines grinding punches **6**
- Panel benders **7**
- Automatic cut stripe cable machine **1**

All proudly **designed** and **produced** in **Tecnodom**.

# BUSINESS STRUCTURE

**SALES MANAGER** Patricia Valerie Belhannane

## ITALY

**3** INSIDE SALES

**4** INTERNAL AGENTS PRESENT  
THROUGHOUT THE COUNTRY

**1** EXCLUSIVE AGENT

## ABROAD

**9** INSIDE SALES

**1** FOREIGN EXCLUSIVE AGENT

**8** LANGUAGES SPOKEN: Italian, English, French, Spanish, German, Russian, Portuguese, Chinese

## BACK OFFICE ITALY AND ABROAD

**1** ITALIAN LOGISTICS

**2** MARKETING

**4** FOREIGN LOGISTICS

The skilled and knowledgeable sales team attends the most important national and international trade fairs and is always ready to assist the Group's customers in the best possible way.

# OUR STORY

and our **goals** for the **future**

1980

The first refrigeration units are assembled in grandma's garage

1982

**DGD Electronic System** is born. Just turned 18, Domiziano opens the first company with his uncle

2000

**TECNODOM**<sub>spa</sub>

2006

**JKS srl** is founded, following the acquisition of REFRIGERATION Srl

2008

**DGD Electronic System** company is taken over again, after being sold years earlier

2013

**CUCINEDOM** (ex Tecnocucine) is born

2022

Launch of the **MEDDOM** brand for the medical, hospital and pharmaceutical sector by JKS

2023

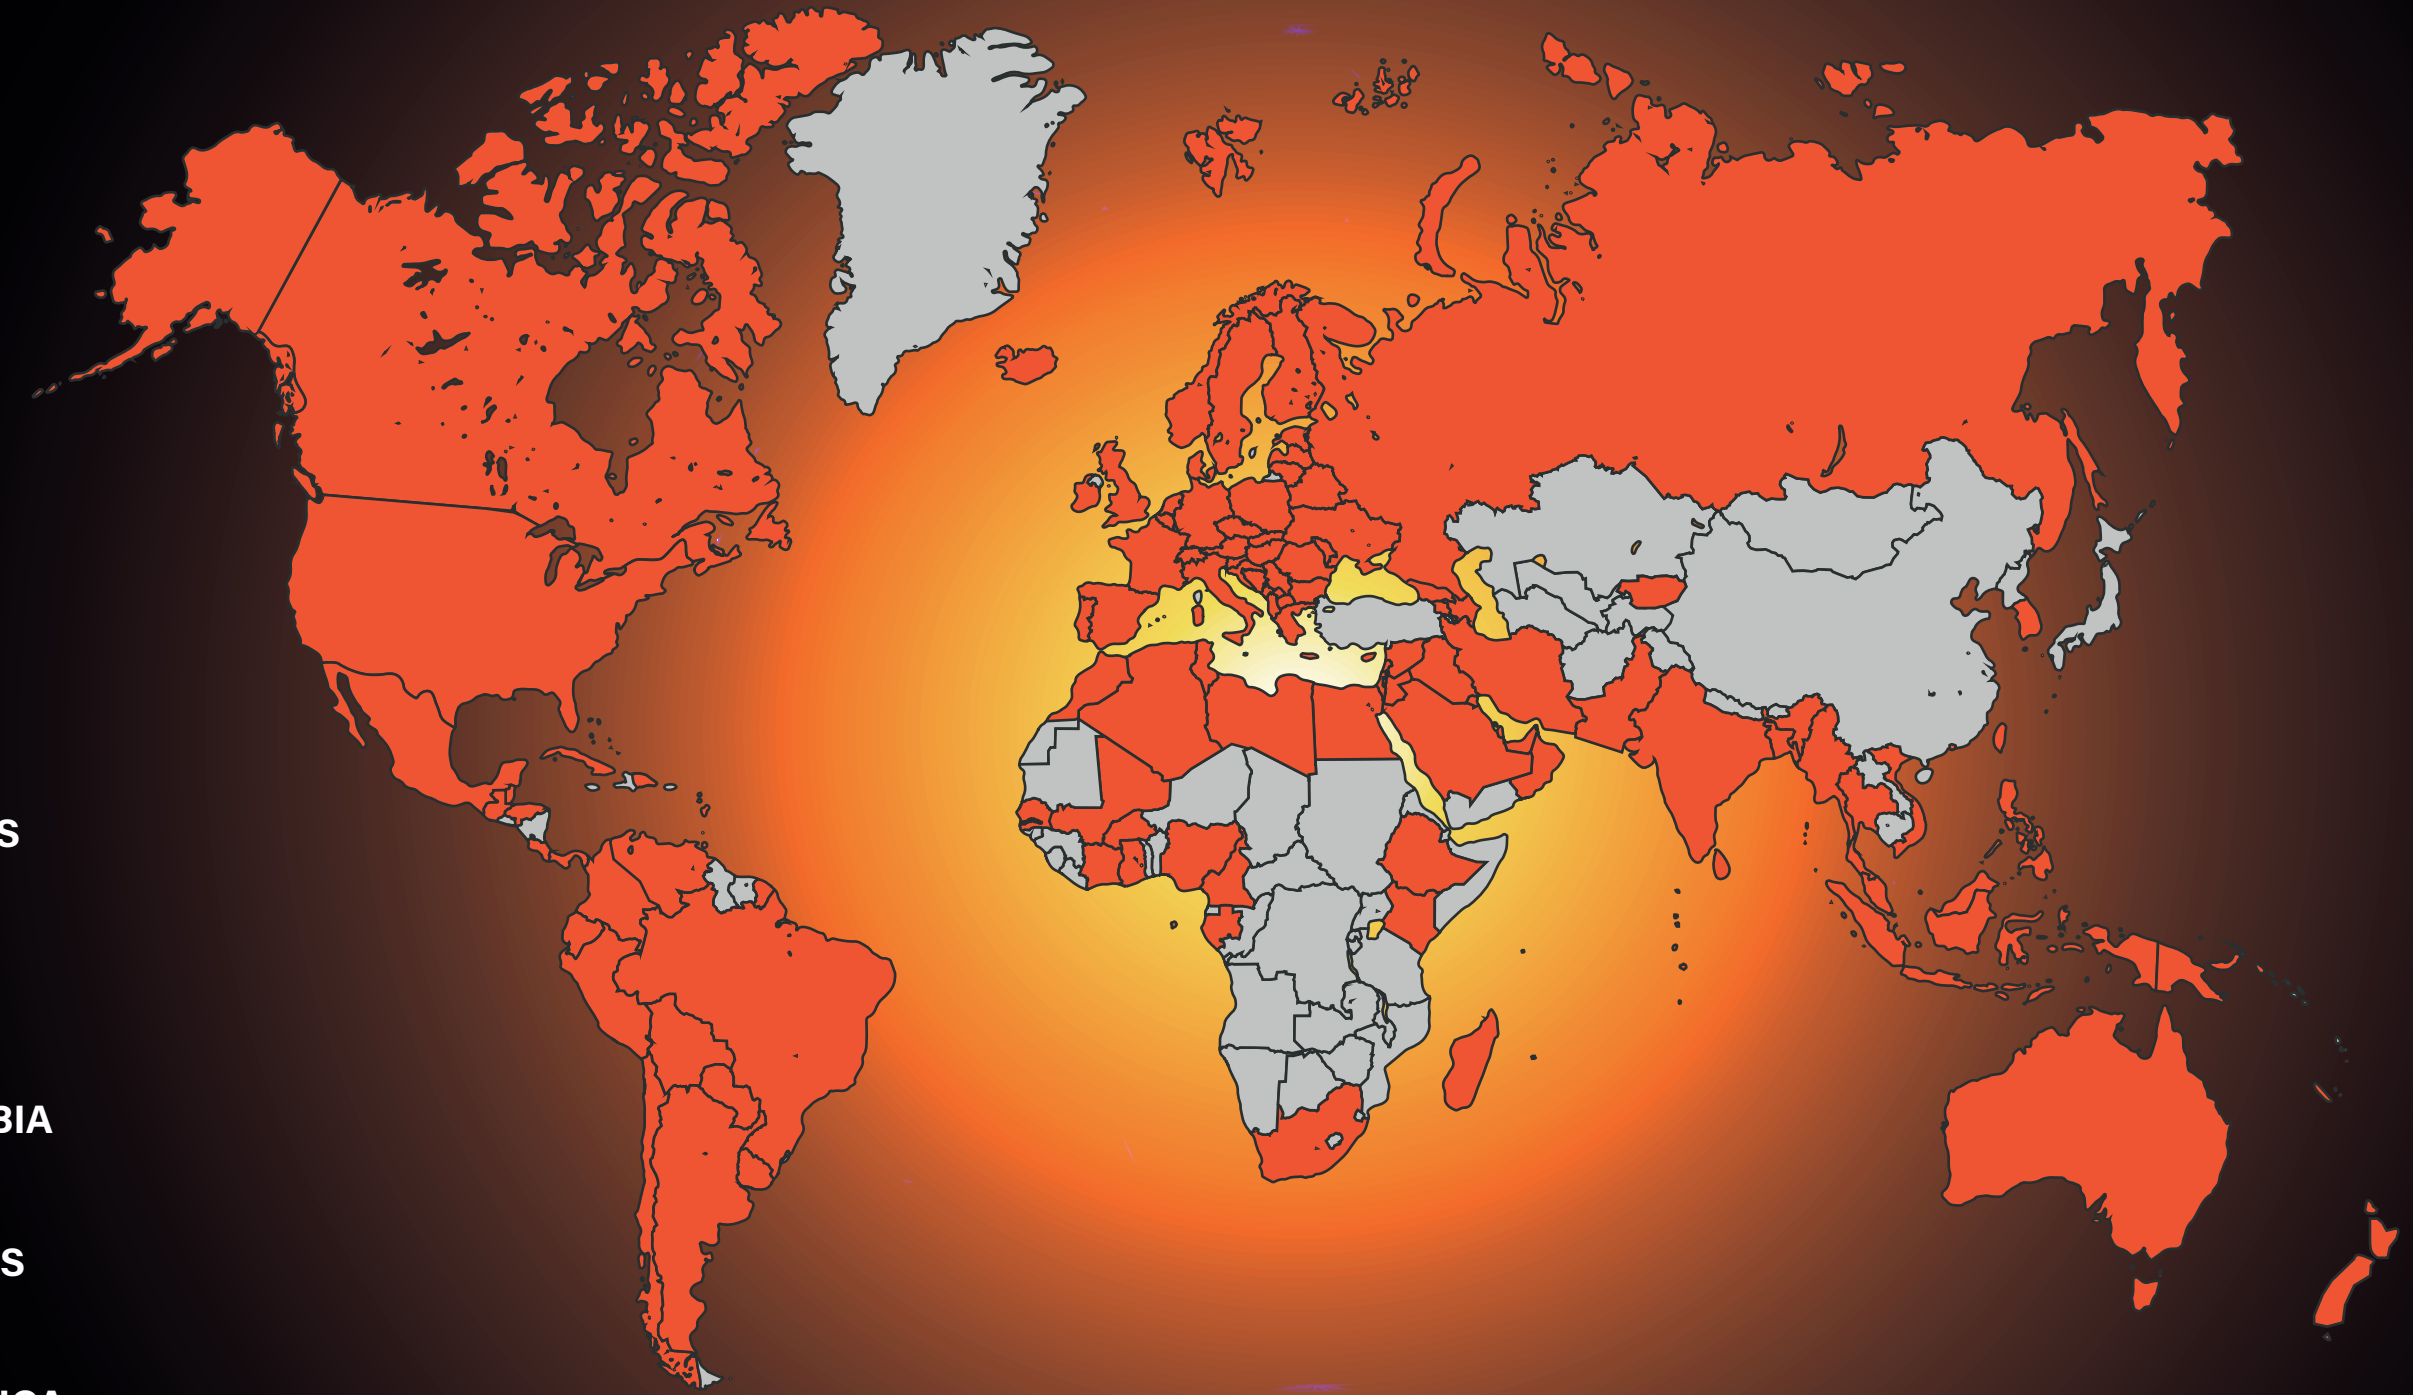

**PIDOM** is born, with **PIRON** brand management

For the near future:

- Consolidate and improve the performance of the already existing brands;
- Insert new products in different categories;
- Promote the Made in Italy image;
- Enhancing consumer communication actions;
- Counteracting counterfeiting and Italian Sounding phenomena.

Tecnodom is an ambassador of Made in Italy passion and experience, a fundamental ingredient in every company directive and every gesture towards its stakeholders.

# ENHANCEMENT OF HUMAN RESOURCES

We believe in the value of each employee, and, through training and a virtuous reorganisation of resources, we seek to maximise their abilities in relation to the processes activated. With an eye to the future, we are adding new operational positions and strategic digital profiles to our offices to keep abreast of tomorrow's professions.

TECNOLOGIA SpA

# OUR COMMITMENT TO THE ENVIRONMENT

RESPECT FOR THE ENVIRONMENT STARTS FROM THE SMALLEST EVERYDAY ACT

Our commitment to environmental protection is embodied in the use of all good practices during the production process, but also in the technical design choices and materials used.

We use R290 gas, a natural refrigerant chosen for its excellent thermodynamic performance and low environmental impact.

# TECNODOM AND SUSTAINABILITY

CFC- and HCFC-free polyurethane foams.

Products with increased thermal insulation for energy and gas savings.

Use of electricity mostly from renewable sources.

Energy efficiency of production lines.

Packaging created from cardboard and recycled materials.

# CUSTOMERS PORTFOLIO

Thanks to our partners, our products can be found in major international chains of:

## HOTEL & RESORT

# OUR PRODUCTS

ALL OUR PRODUCTS ARE DESIGNED AND CREATED IN ITALY, FROM SCREWS TO PACKAGING.

# WORK AREAS

MAXIMUM REACTIVITY AND TOTAL CONTROL OF THE PRODUCTION PROCESS

The main plant is in **Vigodarzere (PD)** and all production units in the complex cover an area of **80,000 square metres**, where around **400 employees** work. The complex encloses departments dedicated to research and development, as well as packaging for shipping.

## Smart production

New production technologies creating collaboration between operator, machines and tools.

## Smart services

IT and technical infrastructures enabling the integration of systems.

## Smart energy

Paying attention to energy consumption, creating better performing systems and the reducing energy waste according to the paradigms of Sustainable Energy.

Our journey began over 40 years ago. In a garage, as was often the case, exchanging the motorbike for a column drill and a compressor. Since then we have been obsessed with a maniacal search for Italian quality.
