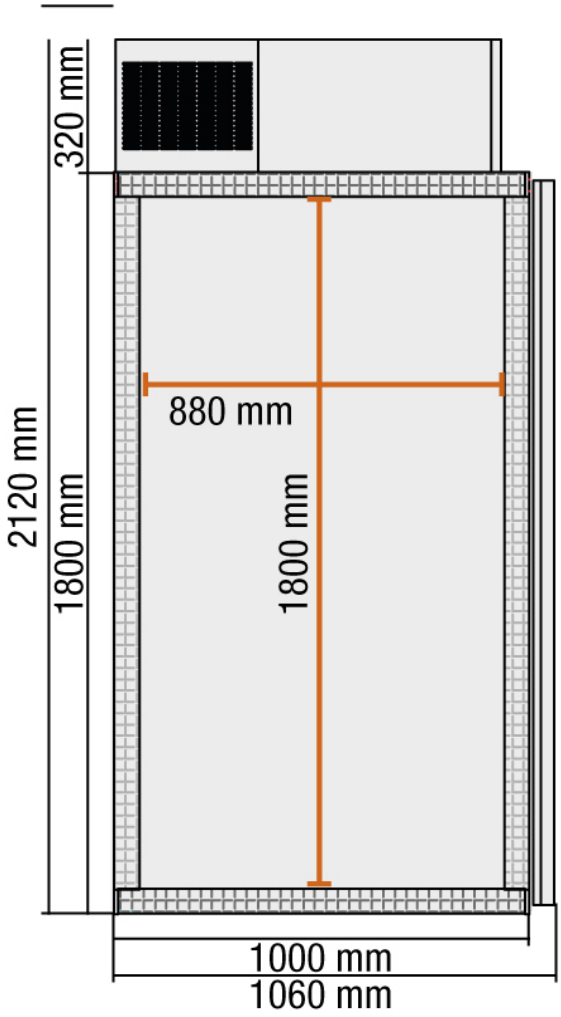
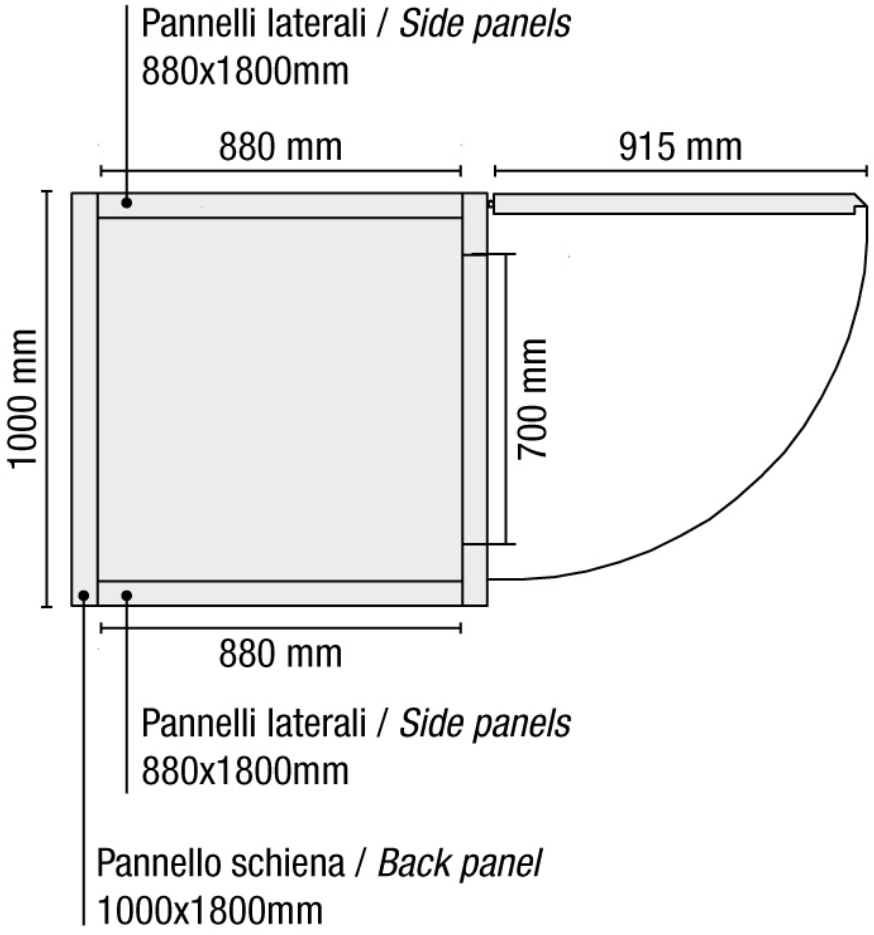
P-MC100TN
Mini cold room, type 100, normal temperature, with R290

Technology, design and production 'Made in Italy'
Various possible setups and great ease of loading make it a practical and functional tool for every occasion and use
Available in white pre-painted sheet metal (P-MC100WHIxx) or in stainless steel (P-MC100INXxx)
Floor in stainless steel
Ceiling monobloc (unit temperature +30°C and relative humidity 60%), fixed to the roof panel
High-pressure injected CFCs free polyurethane insulation
Door with magnetic gasket and hinges on the right, reversible (only in the standard version with floor)
Evaporator with anti-corrosion cataphoresis treatment
Automatic condensed water evaporation
Electronic front control panel with 1 NTC probe
Completely disassembled, it is made up of 6 panels with hook fastening
Large load capacity and compact size
Gas R290
On request supplied assembled and ready for installation
Optional version without floor
Accessory tray trolley

Standard set-up:
3 shelves or 2 stainless steel hooks
Standard packaging: pallet + wood frame + nylon

P-MC100TN
Mini cold room, type 100, normal temperature, with R290




Operating temperature °C	-2/+4
Climate class	4
Refrigerant gas	R290
GWP	3
Insulation thickness (mm)	60
Internal volume (lt)	1301
Door net passage (mm) LxH	700x1680
Voltages (V)	220/240 1P
Frequency (Hz)	50
Power supply (W)	570
Supply current (A)	3,6
Installable shelves	3
Shelves dimensions (mm)	490x880
Dimensions without packaging (mm) LxWxH	1000x1000x2120
Packaging dimensions assembled (mm) LxWxH	1020x1100x2300
Packaging dimensions disassembled (mm) LxWxH	1060x1900x1000
Gross weight (kg)	190
Net weight (kg)	165
